Course & Grade Level Descriptions				
Reading Comprehension Grades 6 & 7/8	Room A203	Strategies for understanding fiction & nonfiction texts, identifying main ideas, making inferences, and critical thinking.		
Grammar & Writing Grades 6 & 7/8	Room A203	Practice in grammar, sentence structure, and editing; paragraph development; narrative, opinion, and expository writing; peer review; and journaling.		
Algebra: CollegeReady Math Grades 6 / 7 / 8	Room A204	Foundational algebra skills are the building blocks to academic success. This is a supplemental math program created specifically to help middle school, high school and college students improve their algebra skills.		
gebra: CollegeReady Math + Combined Grades 6 - 8	Room A204	Combined Grade Class Foundational algebra skills are the building blocks to academic success. This is a supplemental math program created specifically to help middle school, high school and college students improve their algebra skills.		
Literacy through Art	Room A102	Visual arts curriculum that builds skills through a developmental, sequential approach. It covers art elements, principles, history, and appreciation.		
Enrichment STEM	Room A103	Hands-on, engaging activity kits that explore science, math, literacy, and social studies while guiding students through the scientific method. Students work in pairs to build exciting projects making learning both fun and meaningful.		
Preschool 3 & 4 Tiny Explorers: My Big, Bright World	Room 3-1	Our youngest learners will explore the world around them through sensory play, songs, simple science, and hands-on discovery. Each week invites preschoolers to dive into colorful, playful learning inspired by nature, animals, and their five senses.		
Kindergarten Kinder Campers: Nature & Me	Room 4-1	This nature-inspired adventure blends early science, art, and storytelling as students discover the wonders of the outdoors. Through fun and interactive themes, campers will explore bugs, plants, weather, and water through a faith-based lens of wonder and gratitude.		
First Grade Imagination Station: Read, Create, Discover	Room B103	First graders will embark on a journey through books and make-believe! This literacy-rich theme encourages reading, building, performing, and creating. From fairy tales to science fiction, students will develop critical thinking skills while having fun.		
Second Grade Time Travelers in Training	Room B104	Second graders become explorers through time as they journey across ancient civilizations, exciting historical moments, and even peek into the future. This immersive experience connects reading, geography, art, and writing through time-themed projects and stories.		
Third Grade STEAM Stars: Explore, Invent, Create!	Room B202	Curious minds will shine in this STEAM-focused theme designed for budding engineers, artists, and scientists. Through hands-on experiments and collaborative challenges, students will investigate the world and discover their creative spark.		
Fourth Grade Global Citizens: Cultures, Creatures & Connections	Room B203	Fourth graders will travel the globe through geography, world traditions, music, food, and wildlife. This multicultural celebration encourages empathy, appreciation for diversity, and curiosity about how we’re all connected as stewards of the Earth.		
Fifth Grade Mission Possible: Leadership & Legacy	Room B201	Our oldest students will take on the role of leaders-in-training as they explore what it means to make a difference. With a focus on creativity, community, and communication, students will build confidence and purpose as they prepare to leave their mark on the world.
